

YOUR ROAD MAP TO BUYING A PHARMACY

END TO END, DIRECTOR LEVEL SUPPORT TO HELP YOU BUY YOUR PHARMACY

As a responsible and pro-active sales agent we will provide all of the information you, as a prospective buyer, need during the first five steps of the road map whilst seeking to make minimal demand on the vendors time.

Through our sister company PS Finance we can also assist you with the formulation of the financial business plan and introduce the prospective buyer to suitable lenders who are keen to lend to the pharmacy sector.

Take a look at our website where we often publish articles relating to different stages in the road map including the range of lenders that are active in the pharmacy space.

Pharmacy Seekers directors will play an important role during all of the other stages of the buying process up to and including Completion, to ensure that the process is as smooth as possible and will support you directly with any queries raised by either the vendor or the buyers legal and financial representatives.

Please contact Pharmacy Seekers if you would like more information or wish to discuss any of the individual steps in the road map.

He who seeks shall find
